While stocks last

While germs aren't safe, your equipment is.

Reynard Premier detergent & disinfectant wipes were developed with key clinical equipment providers to ensure an unparalleled range of device and material compatibility. The wipes will not dry or damage surfaces, and are safe to use on plastics, polymers, aluminium, stainless steel, powder-coated surfaces, vinyl and leather. Tested and safe to use on and around equipment. The formula was developed to ensure the wipes would clean hard surfaces and equipment without causing harm.
